

Before 2nd Birthday

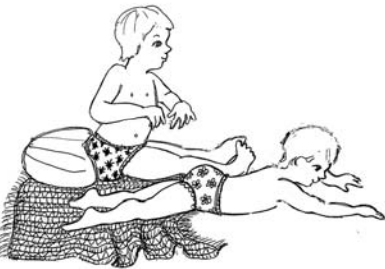

GMFCS Level I

Infants move in and out of sitting and floor sit with both hands free to manipulate objects. Infants crawl on hands and knees, pull to stand and take steps holding on to furniture. Infants walk between 18 months and 2 years of age without the need for any assistive mobility device.

GMFCS Level II

Infants maintain floor sitting but may need to use their hands for support to maintain balance. Infants creep on their stomach or crawl.

GMFCS Level III

Infants maintain floor sitting when the low back is supported. Infants roll and creep forward on their stomachs.

GMFCS Level IV

Infants have head control but trunk support is required for floor sitting. Infants can roll to supine and may roll to prone.

GMFCS Level V

Physical impairments limit voluntary control of movement. Infants are unable to maintain antigravity head and trunk postures in prone and sitting. Infants require adult assistance to roll.
